

## Department of Chemistry Code of Conduct

The Department of Chemistry takes academic integrity very seriously. Violations of the student code of conduct erode the equitable learning environment that we strive for in all of our courses. Therefore, we are requiring all students in our courses to agree to the academic integrity statement in this document at the beginning of the semester.

All students are expected to adhere to policies set forth by instructors on assignments, exams, homeworks, etc. Students may work collaboratively on projects or assignments *only if specifically* permitted by the instructor of the course. Any activity that falls outside of the instructor-permitted exceptions is considered inappropriate and may constitute academic misconduct. Incidents of academic misconduct (including cheating, plagiarizing, research misconduct, misrepresenting one's work, and/or inappropriately collaborating on an assignment) will be dealt with in accordance with the Student Code (Policy 6-400, Section V). Instances of academic misconduct could result in a failing grade for the course; probation, suspension, or dismissal from a program; suspension or dismissal from the university; or revocation of a degree or certificate. Inappropriate behavior includes, for example, submitting assignment problems to online tutoring resources or searching for solutions on such websites and submitting the result as your own work.

All study materials in this course are considered intellectual property of the instructor and the University of Utah (this includes lecture slides, problem sets, exams, answer keys etc.). Unauthorized uploading or distribution of the aforementioned materials to any website, either during or after the semester, is prohibited and may be addressed both as a violation of the behavioral standards as well and an act of academic misconduct. The Department will actively monitor websites for unauthorized distribution and refer all instances of the violation to VP for Student affairs and the College of Science Academic Affairs Committee for investigation. You need written permission from the instructor permitting you to upload the material.

By signing this document, you certify that you understand the Student Code and the University's policies that govern academic integrity (Policy 6-400, Section V) and will abide by these guidelines.
