There appears to be a discrepancy between your 2019 tax filing status and the marital status that was reported on the FAFSA. Before we can proceed with the processing of your financial aid, our office will need to confirm that the information as reported on the FAFSA is correct. Please complete the form below and our office will review.

What is your 2019 tax filing status?

(select from the list below) *

Single

If your current status is married, but your tax filing status is something other than married, you are required to provide your spouse's 2019 tax/income information on the FAFSA. This would include combining your spouse's taxes paid with your taxes paid and your spouse's adjusted gross income with your adjusted gross income.

If any of the information that you listed above does not match what is currently reported on the FAFSA, you will need to log into your 2021-2022 FAFSA and make the necessary changes.
